The physics club logo reveal event took place on the morning of November 2<sup>nd</sup>, 2023 and it was a joyous occasion for both students and teachers. The logo was unveiled in a unique and engaging manner through a puzzle game. Students from both the physics department and other departments participated in the puzzle game. The atmosphere was filled with excitement as participants collaborated to solve the puzzles. The final piece of the puzzle was placed by Dr. Ayoob Keyi, the esteemed principal of the college. As the last puzzle piece was put in place, the physics logo was revealed. This moment was met with cheers and applause from the attendees. The event was a resounding success, and both students and teachers expressed their delight. The head of the physics department, Mr. Khaleel, revealed the framed logo to principal Dr. Ayoob Keyi as a symbol of the club's appreciation. The principal Dr. Ayoob Keyi took a moment to offer his well wishes to the physics club, emphasizing the importance of such academic clubs in fostering learning and camaraderie. The event concluded with a photography session where participants and the principal captured memorable moments. The physics club logo reveal program concluded with smiles and a sense of accomplishment. It was a memorable event that brought together the physics community within the college and created a sense of unity and excitement. We hope to see more such engaging events in the future, strengthening the bond within the physics community.
